

AUTOMATIC MATCH DIPPING MACHINE

Description:

Automatic match dipping machine is used for making match splints to stain medicament automatically. Match splints are paraffined and dipped to get match head and dried to form matches. Then formed matches are pushed out from bars and filled in inner boxes by match box filling machine.

Specification:

Model: SAN-401
Applicable match splints size: 38x1.8x1.8mm
-50x2.2x2.2mm
Production capacity : 1.6 million matches per hour
Speed of main shaft: 135 RPM
Quantity of chain board: 1540 pcs
Drying time of match head : about 30 minutes
Power supply: 7.07KW, 380V, 3 phase
Dimension: 12400x4000x3500mm
Total weight: 18000kg

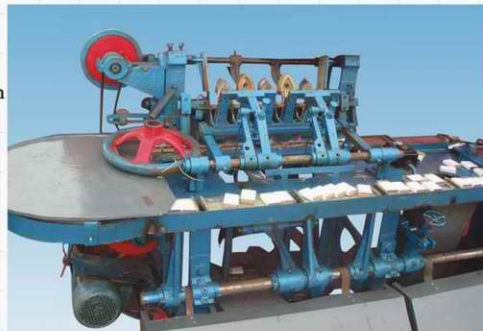

AUTOMATIC MATCH BOX FILLING MACHINE

Description:

Automatic match box filling machine is used for filling formed matches from match dipping machine into match inner boxes.

Specification:

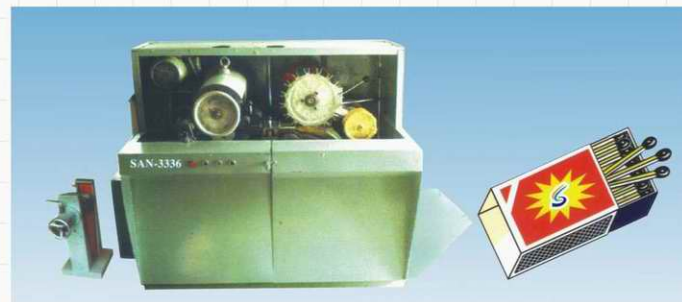

Model: SAN-403
Production capacity: 100 boxes/min
Power supply: 1.1kw, 380V, 50Hz
Total weight: 2000 kg
Dimension: 14700x4500x2800mm

AUTOMATIC MATCH INNER BOX MAKING MACHINE

Description:

Automatic match inner box making machine is used for producing match inner boxes with high speed. Inner boxes are made of cardboard (paper roll) through die-cutting, folding, gluing and forming.

Specification:

Model: SAN-3336
Production capacity: 30000-48000pcs/hour
Applicable size of match inner box: L(40-60)xW(30-50)xH(8.5-17)mm
Applicable paper: 280-320gsm
Applicable paper roll: width: 100mm
max. diameter: 1000mm
Sealing glue: polyvinyl adhesive
Power supply : 2.2 KW, 380V, 3 phase
Dimension: 2300x1100x1600mm (Machine body)
1000x500x1000mm(Paper roll stand)
Total weight: 2000kg
